

I. L. Garland

Lancaster University Physics Department, Bailrigg, Lancaster, LA1 4YW • i.garland@lancaster.ac.uk

Research Interests

Galaxy Formation and Evolution • Active Galactic Nuclei • Merger-Free Processes • Galaxy Morphology
• Science Outreach and Involvement

Education

2019 - present **Ph.D., Lancaster University**. Expected graduation 2023. Supervisor: Dr. B. D. Simmons

2015 - 2019 **MPhys., Lancaster University** (first class) Supervisor: Dr. B. D. Simmons

Grants & Scholarships

2016 **Lancaster University Academic Scholarship** awarded £2,000 as a one-off payment to students who obtained A^*A^*A at A-Level.

2016-2019 **Lancaster University Access Scholarship** awarded £1,000 each academic year to underrepresented students who obtained A^*AA at A-Level and maintained a high academic standard in subsequent years.

Research Projects

May 2019 **Master's Thesis** "Fuelling AGN in the Local Universe"

I compared a sample of disk-dominated galaxies to a sample of elliptical galaxies, then divided the disk sample into barred and non-barred galaxies to examine how effectively each category can fuel AGN.

May 2018 **Third Year Group Project** "An Exploration into the Expansion of the Universe"

We investigated the role of dark energy in the expansion of the Universe following the Λ CDM model, and determined how well future telescopes could further scientific exploration into this concept.

Observing Experience

Nov 2018 Two nights (remotely) on the **Kast Double Spectrograph** (Shane-3m Telescope, Lick Observatory)

May 2022 Four nights on site on the **Wide-Field Camera** (INT, ING Observatory)

Teaching

2019 - 2021 **Graduate teaching assistant**, including practical lab demonstrating, and marking

Outreach and Service

2019 - present **LUniverse planetarium shows**, delivering both virtual and in-person planetarium shows to Key Stage 2 (KS2; age 7 -11) children in the local area

2019 - 2020 **Student Ambassador**, delivering activities designed to allow KS2 children to develop an interest in physics

2020-2022 **Seminar Coordinator** for Observational Astrophysics

Scientific Communication

Jan 2019 **Durham-Edinburgh eXtragalactic** Conference. "AGN fuelling in the merger-free regime", *Talk*

Jun 2021 **European Astronomical Society**, Virtual Conference "Bar-driven fuelling as a means of merger-free supermassive black hole growth", *Poster*

Outside Academia

2016 - present **Girlguiding Volunteer**. *Responsibilities include: safely running units with a balanced and varied programme, financial organisation, coordinating my unit leadership team (**Adult Leadership Qualification**), planning and leading day trips and residential experiences (**Going Away with Guiding License**), mentoring other adult members, and assisting all members in achieving their full potential.*

In Progress **Queen's Guide Award**. *The most prestigious award in Girlguiding, candidates must complete five elements - Service in Guiding, Outdoor Challenge, Personal skill & Development, Community Action and Residential Experience - at a level which matches that of their education.*
